## OBJECTIVE

Full-Stack Developer experienced in designing backend architecture and REST APIs from the ground up, with production ownership of database schema design, authentication, and third-party integrations across the MERN stack.

## CORE SKILLS

**Backend & Architecture:** Node.js, Express.js, REST API design, JWT/OAuth2

**Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3

**Databases:** MongoDB, SQL — schema design & optimization

**Tools:** Git, GitHub, Postman, Google Sheets API

**Languages:** JavaScript, Python, SQL

## EXPERIENCE

**Full-Stack (MERN) Developer — Truwx Tech Solution Pvt. Ltd.**

Sep 2025 - May 2026

- Designed [N] scalable database schemas supporting production traffic, as measured by query performance under load, across MongoDB-backed services.
- Owned end-to-end API architecture for [N] features, as measured by successful production releases, from schema design through deployment.
- Secured application access as measured by zero auth-related incidents, by implementing JWT/OAuth2 authentication across services.
- Extended system capability by integrating [N] third-party services into the existing REST API layer, as measured by integration test pass rate.

## PROJECTS

**BharatroniX — E-Commerce Backend (electronics & hardware)**

- Architected the complete backend from scratch, as measured by stable handling of live ecommerce operations, designing schemas and APIs for scalable order/catalog management.

**Urban-Hub — Full-Stack E-Commerce Platform (React, Node.js, MongoDB)**

- Built the system end-to-end (React UI, Node/Express API, MongoDB schema), as measured by [N] functional modules shipped, with a focus on secure, dynamic data flow.

**MERN Blog Platform with Auth & Content Management**

- Designed a role-based access control architecture (Admin/User), as measured by successful moderation workflow tests, on top of Express APIs and MongoDB.

## EDUCATION

**B. Tech, Computer Science Engineering (AI & ML) — NITRA Technical Campus, Ghaziabad** 2022 - 2026

## CERTIFICATIONS

- Python Training Program, Internshala (Jul 2023 - Aug 2023)
- Advanced Python Course, Udemy — OOP, decorators, generators, multithreading (Nov 2024 - Jan 2025)
- Data Analysis Internship, Appwars Technologies — Excel, SQL, Power BI (Jun 2025 - Sep 2025)
